

# The World's Cleanest Burning

**Earthcore Industries L.L.C.** supplies and distributes some of the most unique and builder specific products in the market today. We are proud of our many accomplishments and we will continue to offer you the most innovative and contemporary hearth products from around the world.

We are proud to introduce the most recent addition to our family of hearth technologies, the **HearthCAT™ Emission Control System** from Clear Skies Unlimited. This exciting new technology has allowed Earthcore Industries to develop the world's cleanest burning open hearth masonry fireplaces. When an Isokern fireplace is equipped with the HearthCAT Fireplace Technology, the particulate emissions are below 3.2 g/kg. All testing and certification was successfully performed at Omni Environmental Testing Laboratory in Portland, OR to the new ASTM E-2558 Test Protocol.

## Earthcore Industries

Earthcore Industries L.L.C. is a Jacksonville, Florida based company that is the exclusive importer and distributor of Isokern brand fireplaces and chimney systems for North America.

Isokern Standard 36"

Isokern fireplaces and chimney systems are perfect for indoor, outdoor, multi-family and commercial use.

Isokern is the pioneer in modular masonry fireplace and chimney design. With its modular, interlocking construction, Isokern fireplaces and chimney systems are lighter and easier to assemble than other systems. The environmentally friendly pumice stone construction offers a high insulation value and exhibits reflective qualities improving the burn efficiency of each fireplace produced.

Since 1987, Earthcore Industries has established over 150 dealers and ten sales and distribution centers in specific cities across the United States. Currently, sales offices are located in: Atlanta, Georgia; Boston, Massachusetts; Charleston, South Carolina; Charlotte, North Carolina; Dallas, Texas; Houston, Texas; Jacksonville, Florida; Las Vegas, Nevada; Los Angeles, California and Phoenix, Arizona.

Earthcore Industries has formed a strategic partnership with Clear Skies Unlimited to deliver the cleanest wood burning fireplaces available anywhere in the world.

Together, Earthcore & Clear Skies have developed a series of Isokern wood burning fireplaces that meet new air quality challenges from the US Environmental Protection Agency. This new series of HearthCAT equipped masonry fireplaces easily meet the new EPA Phase II Particulate Emissions Requirement of 5.1 g/kg. Our particulate emissions average less than 3.2 g/kg.
